Bloomfield Schools BobcatWifi Login

Below are the instructions for connecting to the BobcatWifi network using an iOS Device (iPhone/iPad).

IOS

1. Go to "**Settings**" and then to "**Wi-Fi**". Select the **BobcatWifi** network and use "**gobobcats**" for the password. You will now be connected to the BobcatWifi network but you will not be able to fully view websites and apps until you do the below instructions.	
2. Open Safari and go to "www.bsin.k12.nm.us". You will need to navigate to following menu **Departments** > **Technology Services** > **Wi-Fi Security Certificate**. Please read the Wi-Fi Service Agreement and tap the "**Download BobcatWifi Security Certificate Here**" link.	

3. Depending on if you have the Google Drive app installed, 2 things can happen
  a. **No App** – Hit the blue button that says **Download**, then hit **Allow**, and then you will see **Profile Downloaded**.
  b. **With App** – The Drive app will open and you will get an unsupported File type message. Click the **3 dots**, **Open In**, **Save to Files**, **On My iPhone**, and **Save**. Now open the Files app on your phone, browse to the downloaded file, and click it, you will get a **Profile Downloaded** message.	

4. Go back to your **Settings** app, and look for the "**Profile Downloaded**" at the top and click it. You will be prompted to install the Certificate. Tap "**Install**". If prompted, input your devices' Passcode/Password to allow the installation. If a second Window prompts to install once again, tap the "**Install**" button.	
5. When the installation has completed, tap the "**Done**" button.	
6. Finally, go back to the **Settings** menu and go to "**General**", then "**About**", then scroll to the bottom of the screen tap on "**Certificate Trust Settings**". You will see the certificate called "**Bloomfield Smoothwall**". Slide the Switch to the right to enable the certificate. If you see a warning message, tap "**Continue**". You are now connected to the internet.
